

gait2392 spinal SNS — toolbox-native subnetworks

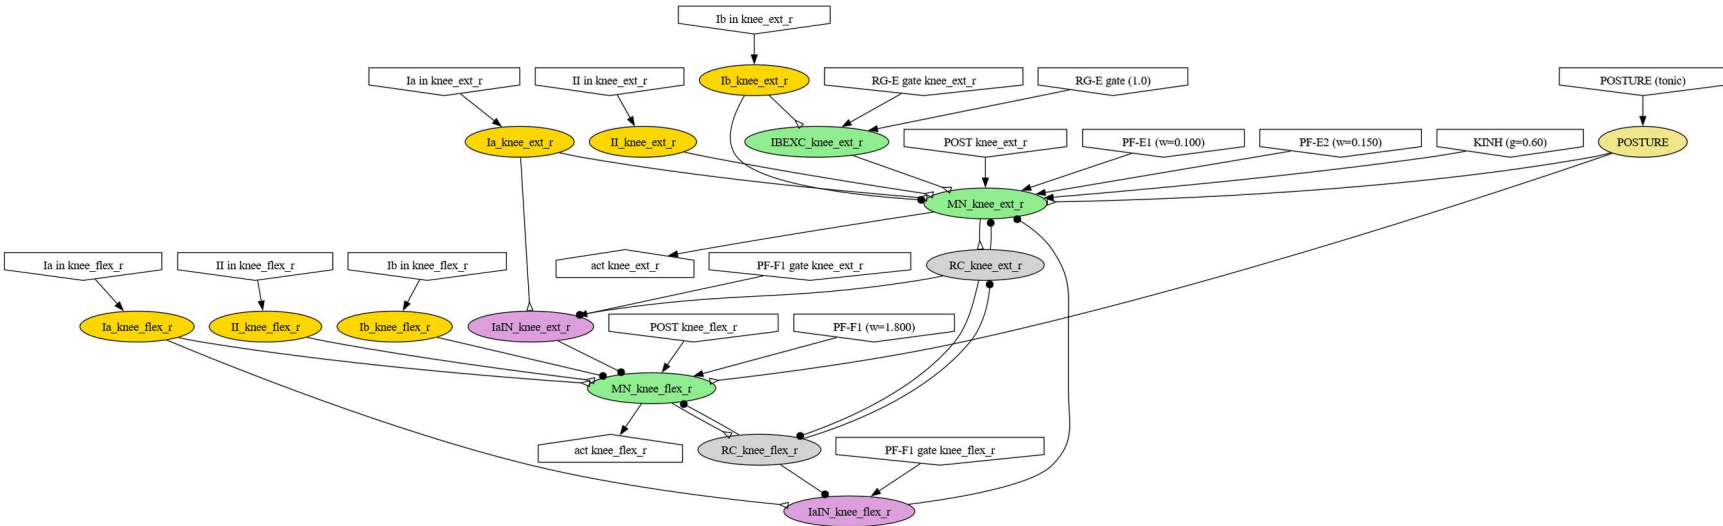

A Rhythm generator (right)

B Pattern formation (right)

C Motor/reflex circuit — representative right-knee columns

Rendered with sns_toolbox.renderer from the Network objects. Laminated architecture: RG-E→InE→RG-F and PF-E→PF_IN_E→PF-F (no direct half-center inhibitory synapses). Mirrored left layers and left-right commissurals are omitted for clarity. Conductances: curriculum stage-1 winner + representative feedback gains; failed stage-3 score -100.0 ignored.
