RF/HAM four-cell PF | right

Recorded Session1 editor projection, not a newly asserted current circuit.
RF/HAM retained separately from sartorius/gracilis; supplied excitation/inhibition categories.
Arrow: saved excitatory category. Open circle: saved inhibitory category.
Neuron colours: RG blue; PF green; motor salmon; afferent purple.
Dashed pentagons: boundary references, not additional neurons.
Edge numbers: gmax (uS). Full fields and IDs accompany each panel.
