
Developed or used in this dissertation
Future integration
targets
actuator model
Biomechanics
Human benchmark (Ch. 2)
BPA force models
Characterization (Ch. 3)
Torque model
Corrections, routes (Ch. 4)
Routes and torque model
Sensory Afferent Database
Pathways (Ch. 5)
SNS simulation
Software tools (Ch. 6)
BPA robot
SNS control (future work)
Biological insight (future)
