Median publication year of retained papers
Neuromechanics & robot/insect walking models 137 of 205
Afferent control of locomotion (classics) 117 of 141
Spinal interneuron circuits & CPG modeling 103 of 142
Cat locomotion & spinal-injury adaptation 69 of 94
Human balance & posture 49 of 82
CPG rhythm generation & neuromodulation 30 of 45
Proprioceptor & neuron models 29 of 49
